

PICOCTF

WEB EXPLOITATION

Scavenger Hunt

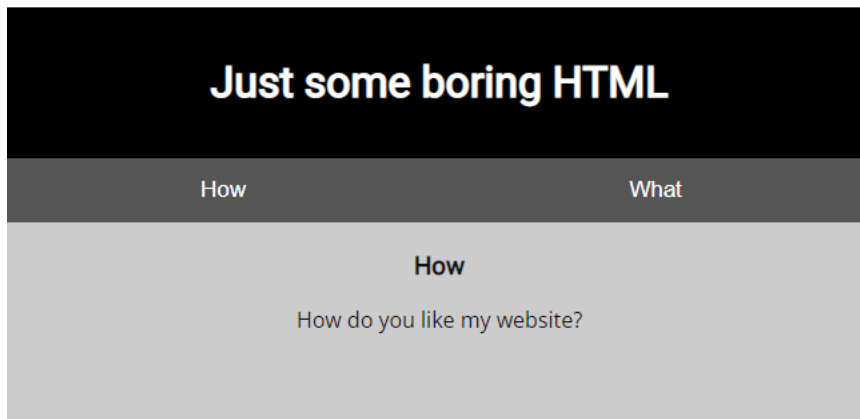

This is one of the easiest challenges on PicoCTF very straight forward

Description

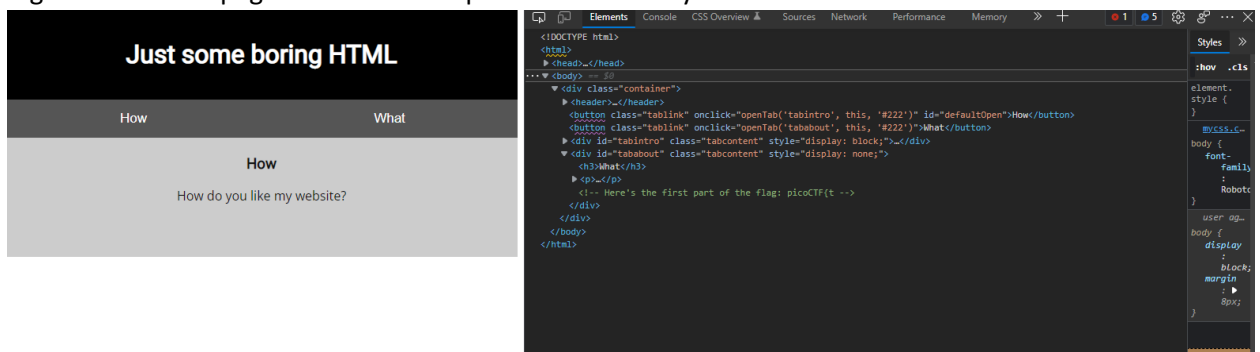

There is some interesting information hidden around this site <http://mercury.picoctf.net:27278/>. Can you find it?

How to tackle the task

- I clicked on the provided link and redirected to a site.

- Right-click on the page and click on inspect or the F12 key.

- Click on elements and you will see the main page and the first part of the Flag at the bottom. See screenshot above. 'picoCTF{t'
- Got o sources in the menu bar and click on mycss.css and you will find the next part of the flag.

'h4ts_4_10'

- We have been given a clue on the previous page to use htaccess that what we are going to do and replace the robots.txt with .htaccess and get the flag portion 3s_2_I00k.

```
# Part 4: 3s_2_I00k
# I love making websites on my Mac, I can Store a lot of information there.
```

- But we have been given another clue we just search how Mac store data and it is by DS_Store so we replace htaccess with .DS_Store to get the next flag portion _a69684fd}

```
Congrats! You completed the scavenger hunt. Part 5: _a69684fd}
```

- Combine all the portions to complete the challenge
picoCTF{th4ts_4_103s_2_I00k_a69684fd}
- Submit the flag and get the points 🏆
